We work, where you play.

Koolfab™

Chill Out with Koolfab™ Innovation in Action

Morbern **Koolfab™** built-in technology reduces vinyl surface temperatures using the principles of IR (infrared) reflective technology to keep things cool. Instead of absorbing all of the sun's rays, it reflects non visible IR waves, so the **Koolfab™** surface stays cooler than standard products.

Get out of the hot seat! With Morbern's new **Koolfab™** technology, marine adventures have never been cooler.

Standard Coated Fabric

Koolfab™

| Colors | Java | Cedar | Legion Blue | Aubergine | Jet (Black) | Scandi Blue | Hemlock | Slate | Warm Grey | Buckskin |
|------------------|------|-------|-------------|-----------|-------------|-------------|---------|-------|-----------|----------|
| % Heat reduction | 23% | 21% | 19% | 18.5% | 17.5% | 17.5% | 15.5% | 15.5% | 15% | 14% |
