in digital printed
coated fabrics

(n)deavor!

Leading manufacturers of decorative upholstery fabrics for over 50 years.

(n)deavor!

**Outdoors – Recreational Vehicles,
Golf Carts, Marine, Softubs, Backyards,**

Features & Benefits

(n)deavor! is a world class digitally printed coated fabric. Engineered by Morbern's advanced technical team to withstand outdoor abuse and weathering. No print peel, fade or wear off!

Specifications

Thickness: 35 +/- 4 mils

Weight: 33 +/- 2 ounces per linear yard

Abrasion Resistance: No significant wear after 500,000 double rubs with #8 cotton duck using the Wyzenbeek test method. 100% print retained. 1,000 Hours WeatherOmeter

Finished Width: 54 inches

Roll Length: 30 Linear Yards

Flame Resistance:

FMVSS-302

Cal TB 117-2013 (Section 1-Cover Fabric)

BIFMA

NFPA 260

UFAC Class 1

Morbern is one of North America's leading manufacturers and innovators of decorative vinyl upholstery fabrics. For over 50 years, our focus has been on delivering total design and performance solutions in vinyl upholstery for the Corporate, Healthcare, Hospitality, Marine, and Transportation markets and a wide variety of other markets.

Care & Cleaning:

To prevent buildup of dirt and contaminants, which may cause permanent staining, periodic cleaning is highly suggested. The frequency of cleaning is dependent upon the environmental conditions the material is subjected to. In general, most common stains can be cleaned using warm, soapy water and clear water rinses. Moderate scrubbing with a medium bristle brush will help loosen soiling materials from the depressions of embossed surfaces. For more stubborn stains, use Formula 409® commercially available cleaner in accordance with the manufacturer's instructions. Full strength rubbing alcohol or mineral spirits may be tried cautiously as a last resort on very stubborn stains, if the above suggestions do not work. Indiscriminate use of any solvent or solvent containing cleaner, can severely damage or discolor vinyl. Always follow with a clear water rinse after cleaning with solvents. Note: Detergents should never be used on a regular or repeated basis for normal cleaning. Morbern recommends repeated rinsing with clear water after any cleaning procedure. Bleach cleanable: When disinfecting with bleach, dilute with water up to a 9:1 ratio (10%). Liberally apply diluted disinfectant using a sponge. Rinse with cold water several times. Wipe Dry and repeat if necessary. Federal regulations require that guidelines on the bleach label to be followed for antiseptic or antimicrobial purposes. The following disinfectant cleaners are approved for use on MorCare™ products: Asepticare TB II, Lysol Foaming, Birex, Precise (Caltech), Cavicide (Metyrex), Super Sani-Cloth PDI, Citrace (Caltech), Virex 256, Dispatch, Wex-cide, CaviWipes, Virox 5, Oxivir TB, and Oxivir Plus. When opening a new container, please test the cleaner in an inconspicuous area as cleaning manufacturers may change the formula without notice. Morbern cannot be responsible when unknown changes are made by the manufacturer of the cleaner to their formulations between our 6-month verification intervals. Caution: Exercise care as rubbing alcohol and mineral spirits are flammable. Use only small quantities of solvents and keep clear of any sources of ignition. Wear protective gloves and ensure cleaning takes place in a well-ventilated area.
