

Mink

A silky, leather-like upholstery for water adventures

Taking its name from the soft, water-shedding coat of a semiaquatic animal, Mink combines the finesse of an ocean liner with the work ethic of a longshoreman.

Built on Splash, a highly tailorable, multi-directional stretch base, Mink sports a soft hand, emulating the buttery feel of a fine Nappa leather. It stays clean thanks to Sea Silk, Morbern's newest, most stain-resistant marine topcoat, featuring a satin low-gloss finish and an ultra-fine leather grain. In marine upholstery, nothing tops Mink, constructed to the highest performance of any Morbern vinyl. Hard-wearing but soft feeling, it is made-to-last in Canada, and available in 12 stocked colorways.

Specifications

- Weight: 33 +/- 2 ounces per linear yard
- Thickness: 45 +/- 5 mils
- Roll Width: 54 inches
- Roll Length: 40 linear yards
- 1000 Hours WeatherOmeter Resistance
- Mildew Resistant
- Cold Crack: -25°F
- Abrasion Resistance: Wyzenbeek test method: CFFA-1a #10 Cotton Duck; 250,000 Cycles Pass: No significant wear
