

# Rio

Rio is Morbern's newest marine accent vinyl created for upholstery and accessory trim parts.

Rio is developed on Morbern's Splash construction featuring multidirectional stretch, engineered for upholstery applications on contoured seating foam and accessory parts. It employs Morbern's standard marine topcoat, a textured, highly cleanable surface enhanced with UV inhibitors.

Rio's surface builds in a pearl finish with a satin gloss to create a vinyl with more depth and dimension. It provides a textured metallic accent to Morbern's wide array of neutral base types of vinyl namely Voyager, Splash, Bayside, and Mink.

## Specifications

- Weight: 33 +/- 2.0 ounces per linear yard.
- Thickness: 45 +/- 5.0 mils.
- Roll Length: 40 linear yards.
- 1000 Hours Weather Ometer Resistance.
- Mildew Resistant.
- Cold Crack: -25°.
- Abrasion Resistance: Wyzenbeek test method: CFFA-1a #10 Cotton Duck; 250,000 Cycles Pass: No significant wear.
