

Wondering what to clean your vinyl with? We've got you covered. Below is a complete list of approved cleaners for Morbern products used across a wide range of industries

In most cases, everyday stains can be easily cleaned with warm, soapy water and a clear water rinse. Moderate scrubbing with a medium-bristle brush helps lift dirt from the textured surfaces. For tougher stains, you can use one of the commercially available cleaners listed below, following the manufacturer's instructions for best results.

Approved Cleaners for Morbern Vinyls:

Morbern evaluates all recommended cleaners in laboratory conditions specified in ASTM D 1308 and CFFA 141. However, many factors outside of Morbern's control can influence the effectiveness and compatibility of cleaners on vinyl surfaces including recommended products. Morbern strongly recommends testing the selected cleaner in an inconspicuous area prior to using any product.
