

Bayside

Designed for versatility, personalization, and refined luxury.

Bayside features a smooth, matte linen grain offered in 27 versatile colorways, ranging from essential neutrals to rich rustic tones and earthy shades of red, blue, yellow, and green. Built with Morbern's Splash™ construction—our pink-stain-resistant vinyl formulation and the gold standard in the marine industry—Bayside delivers outstanding UV protection, crack resistance, and 4-way stretch. It's an ideal choice for both interior and exterior boat applications.

Originally engineered for marine environments, Bayside's broad color palette, excellent tailorability, and exceptional wear performance also make it a strong fit for the contract market.

Specifications

- Weight: 33 +/- 2.0 ounces per linear yard.
- Thickness: 45 +/- 5.0 mils.
- 650 UV Hours
- Resistance. Mildew resistance newline.
- Cold Crack: -25°.
- Abrasion Resistance: Wyzenbeek test method: CFFA-1a #10 Cotton Duck; 250,000 Cycles Pass: No significant wear.
- Flame Resistance: Cal TB 117-2013 (Sec.1-Cover Fabric), NFPA 260, UFAC Class 1, IMO MSC 88/26/ADD.2 PART 8 (3.1 & 3.2)
- FMVSS302 Compliant
