

(n)Deavor!

Digital Print base for outdoor applications.

(n)Deavor! is an advanced expanded marine vinyl built on a highly stretchable synthetic knit backing, allowing it to conform to complex curves while maintaining excellent dimensional stability.

Engineered for long-term performance, it delivers superior strength, durability, and UV resistance to withstand harsh marine conditions. Its mildew- and stain-resistant construction helps keep surfaces cleaner and looking newer, even in moisture-rich environments.

Ideal for marine seating, trim, and other high-use applications, (n)Deavor! offers reliable, all-weather performance with the flexibility and resilience today's marine market demands.

Specifications

- Finished Width: 54 inches
- Weight: 33 +/- 2 oz per linear yard
- Thickness: 35 +/- 4 mils
- Abrasion resistance: No significant wear after 500,000 double rubs with #10 cottontuck using the Wyzenbeek test method
- Cold Crack -25° F
- 650 UV Hours
- Mildew Resistant
- FMVSS302 Compliant
- IMO Med Wheel mark certified
