

Sundance KoolFab®

High-Tech Cooling Relief.

Morbern's Sundance has long been the answer where sun, rain, and snow are a concern. And now this stain-resistant, outdoor-friendly vinyl can modulate temperature extremes thanks to the incorporation of KoolFab® technology. Created by Morbern's innovative R&D team and perfected by its experienced engineers, KoolFab® technology uses built-in IR reflective technology to prevent the vinyl from reaching sizzling temperatures. KoolFab® technology is proven to lower surface temperatures by a minimum of 14%.

Specifications

- Finished Width: 54 inches.
- Standard Weight: 22+/-2 oz per linear yard.
- Thickness: 35+/-4 mils.
- Cold Crack: -25° F. 1000 Hours Weather Ometer.
- Abrasion Resistance: Martindale; 500,000 Cycles Pass no significant wear.#10 cotton duck.
- Flame resistance: Title 49. Cal TB 117-2013. NFPA 260. UFAC Class 1.
- Mildew Resistance: no growth or discoloration
- Blocking Resistance: Scale rating 2 max.
