

Splash Technology

Splash Engineered for Life on the Water.

For decades, Morbern has helped shape the marine experience with high-performance coated fabrics built to handle sun, moisture, movement and everything in between. From fishing boats and pontoons to luxury cruisers and high-speed vessels, Morbern surfaces have long been trusted to perform beautifully under pressure.

4 WAY STRETCH

Splash features exceptional four-way stretch that conforms smoothly to curves, contours and complex forms. It fits securely around rounded cushion edges for a clean, tailored finish.

Key Specifications and Product Features

Content and Backing	Vinyl / 100% knitted polyester
Application	Interior and Exterior 650 hours QUV
Mildew Resistance	ASTM G21
Pink Stain Resistance	ASTM E1428
Weather Resistance	650 hours QUV
Cold Crack Resistance	-25°F
Flame Resistance	FMVSS 302, Cal TB 117-2013 (Section 1-Cover Fabric), NFPA 260, UFAC Class 1 IMO MSC 88/26/ADD. 2 PART 8 (3.1 and 3.2). *Must be used with suitable components.
Additional Features	Four-way stretch; five-year limited product warranty
Cleanability	See Morbern's approved Marine Cleaners list on the website

Please refer to **morbern.com** for the most current specification information.

Feature Highlights

- + Formulated for UV protection
- + Formulated for Mildew Resistance
- + Splash uses a pink-stain resistant vinyl formulation, the gold standard in the marine industry.
